

## **Safe T Bar Inc. – Standard Grab Bar Finishes**

### **Grip Tight™ non slip finish:**

Safe T Bar Inc. trademark finish is our Grip Tight™ non slip finish; it is a true non slip finish and was engineered by the Founder of this company Gary Markovich in 1978. The original non slip surface Grip Tight™ is manufactured in the USA and is not an added material, its mechanically altered 304 stainless steel. No peeling, no knurled grooves to collect bacteria and it is easy to clean and will last as long as your grab bar. Grip Tight™ is grey in color which naturally happens from the mechanically altering process to the 304 stainless steel. Exposed Mount is standard or specify for Anti Bacteria Safe T Ring™ conceal or Snap Mount conceal. Grip Tight™ non slip finish is offered in a variety of sizes and types of grab bar products. Safe T Bar Inc grab bars products are rigorously inspected to ensure the safety and quality of our products.

### **Satin (Brushed Stainless) finish:**

Safe T Bar Inc. Satin finish is a lustrous #4 polish (chrome appearance), which is manufactured in our factory in the USA. Safe T Bar Inc. does not use the Mill grade #4 which has a duller appearance. Safe T Bar Inc. takes the time to remove all imperfections in its Satin finish to give a beautiful cosmetic grab bar or custom product. Exposed Mount is standard or specify for Anti Bacteria Safe T Ring™ conceal or Snap Mount conceal. Satin finish is offered in a variety of sizes and types of grab bar products. Safe T Bar Inc grab bars products are rigorously inspected to ensure the safety and quality of our products.

### **White or Bone Powder Coat finish:**

Safe T Bar Inc. Powder Coat finish grab bars are baked finish over the 304 stainless steel material and manufactured in the USA. Anti Bacteria Safe T Ring™ conceal or Snap Mount conceal is standard, specify which concealment mount. Powder coat grab bars are the next upgrade to create and enhance the cosmetic appearance in the bathroom area. Safe T Bar Inc. standard powder coat finishes are White and Bone. Powder Coat finish is incredibly durable and is offered in a variety of sizes and types of grab bar products. Safe T Bar Inc grab bars products are rigorously inspected to ensure the safety and quality of our products.

### **White or Bone Grip Tight™ non slip Powder Coat finish:**

Safe T Bar Inc. Powder Coat Grip Tight™ finish grab bars are baked finish over the 304 stainless steel material on the knuckle and the center of the grab bar is our Grip Tight™ non slip finish. This original finish grab bar is manufactured in the USA and offered only at Safe T Bar Inc. Grip Tight™ is grey in color which naturally happens from the mechanically altering process to the 304 stainless steel. When the Powder Coat Grab Bar and the Grip Tight™ finish are together it the next upgrade of safety and cosmetic to enhance the bathroom. Anti Bacteria Safe T Ring™ conceal or Snap Mount conceal is standard, specify which concealment mount. Safe T Bar Inc. standard powder coat finishes are White Grip Tight™ and Bone Grip Tight™. These two finishes are incredibly durable and is offered in a variety of sizes and types of grab bar products. Safe T Bar Inc grab bars products are rigorously inspected to ensure the safety and quality of our products.
