

Safe T Bar Inc. -Wall to Wall Specialty Grab Bars

USA Manufactured and Packaged in Minnesota. STB grab bar products - Exceed ADA, ANSI and Federal Codes.

Material used in manufacturing the grab bar products is 304 stainless steel 18-8 chromium nickel. Tubing 18 gauge 1 1/2" OD, wall clearance is 1 1/2", include 304 stainless steel screws and individually boxed. Standard flange washer mountings are Exposed Mount, however Snap Mount Conceal and Anti Bacteria Safe T Ring Conceal are also available. All flange washer are 3" OD (outside diameter). See Mounting options for additional detail/specifications.

Tubing extends through the flange washer and is full fusion Tig (heliarc fused [Stronger] - not wire feed or filler) and welded to Military standards to form a single unit. The recessed (bossed); flanged washer keeps the weld away from installation to allow the grab bar to lay flat against the mounting surface. Flange Washer Mounting holes are true to ± 1/8".

Safe T Bar GRIP TIGHT™ NON- SLIP surface - ASSURANCE OF POSITIVE GRIPPING – It Grips you!

Safe T Bar Inc. features the exclusive "GRIP-TIGHT™" surface and is our standard finish. Grip Tight™ is permanently etched in the stainless steel bar, it's not an added material, effective against slipping when the user's hands are wet and soapy. Grip Tights™ color originates from the mechanical process to the 304 stainless steel, the surface is easy to clean, will not peel or create bacteria.

Custom sizes and finishes; Custom Bar is any alterations to our standard sizes, finishes and types of grab bars.

Wall to Wall Grab Bars are designed to support from the sides when no wall exists to install a grab bar. This bar is only mounted on the wall, no floor mounting required. The U shape bar offers horizontal and vertical support. The U measurements is 30" out from the wall down 18" and back to the wall. A single U Grab Bar requires an outrigger for side support and specified Left or Right hand. Outrigger is 6" out to the right or left side of the bar and either top (most requested) or bottom placement. A UU (double U) Grab Bar requires a cross support, measurement is 30" wide and out from the wall 8". All measurement are on center of tube. Grip Tight™ finish, include stainless steel screws and individually boxed.
